Finally. . .

Yes! Finally an awesome non-profit community based music program that's designed to stimulate that feeling of irresistible pride, sense of accomplishment and elevated impression of self-worth. This band program is not based on academic levels, socioeconomic status, race, ethnicity or creed. It instills discipline, a sense of community, tolerance and an unmatched atmosphere of camaraderie among all. These are not only the program's objectives, but its major benefits as well. Put simply, this is the sound of success for our community...to be united together for a positive purpose and the uplifting of one another through music.

The Sound of Success is designed to embrace, encourage and empower young people. Involvement with music has been proven to increase:

- Self-discipline
- Thinking Skills
- Dexterity
- Self-Esteem
- Listening Skills
- Personal Expression
- Coordination
- Creativity

WHO ARE WE?

The Sound of Success is a program for young children and adolescents. It is an extraordinary opportunity for young people to be involved in a free, high-quality community music education program that brings together youth from across the community. The program is sponsored by First Calvary Missionary Baptist Church and is created and directed by Raynard Jones, a professional musician of many years of experience. He, along with other community volunteers experienced in music, teach the youth to

play instruments and work together as a team to form a sensational band that will both march and play in concert.

PHASES OF THE PROGRAM

Phase I of the program has already begun, centering on the heart of the band which is the drumline. The percussion section is the life and rhythm of the band and a strong percussionist are currently in training with The Sound of Success. In addition to the percussionists, the band currently has a vibrant color guard, which will add that extra flare to marching exhibitions.

Phase II expands the band to include woodwind, brass, and stringed instruments, allowing the band to play alternately between marching band, concert band and even orchestra! The Sound of Success is currently in need of youth who would like to play an instrument!

DO I NEED ANYTHING SPECIAL? The most important thing a participant can bring to The Sound of Success is a willingness to learn,

however, it is best if a student comes with the instrument they would like to play. Many instruments can be purchased for very low costs via online sites

or even at pawn shops. However, in some circumstances, the organizers of The Sound of Success will help youth find the instrument of their choice at a reasonable price. Just ask Mr. Jones for tips on how to get an instrument. The bottom line for the band...whether you currently have an instrument or not, if you are willing to learn, WE WANT YOU!
